Project results

Project objective - to highlight the similarities between different European cities throughout history in order to be able to respect and preserve historical sites for cultural identity as well as tourism.

Project results and outcomes:

- creation of project's website, forum added to the project's website and finalize the form of the website including all the results;
- creation of project's Moodle platform;
- one year overview conference, final conference and an exhibition in each country;
- booklet about survey results, design maps, creation of a brochure, a photo album and a digital video that will include information through all the cities involved;

Project impact - the participation of partners from very different European countries covering a wide territory all around Europe, reflecting how the cultural heritage of many different spread regions have become one without forgetting the respect of their diversity; so arriving to a better understanding of the multiculturalism.

Impact of partnership activities to have on persons and on the participating institutions:

- increasing of the feeling of belonging to Europe;
- value more the cultural heritage from old cities;
- good manage the ICT tools;
- cooperation to spread the result to many in order each country learn from different cultures and influences.

This project has been funded with support from the European Commission.
